

# WILDLIFE DEPREDATION ASSISTANCE

Resources available to assist farmers and ranchers experiencing damage to livestock forage supplies

## PLAN AHEAD TO REDUCE WILDLIFE DEPREDATION

The Department cannot compensate landowners for losses. However, resources are available to help reduce depredation problems, including:

- permanent deer-proof hay yards
- custom-built deer-proof panels
- food plots and habitat
- hunter access programs
- temporary fencing
- scare devices and repellent
- technical assistance

If you have a depredation problem to livestock forage supplies, or foresee the potential for a problem, contact us for assistance.

 **701-328-6300**

## HUNTING

Hunting is the most effective method for minimizing or reducing depredation over the long-term.

## RESOURCES AVAILABLE
